

The Safety Company

Boost Your Devices with Seamless Multi-Protocol Connectivity

1 Simplified Multi-Protocol Communication

Connect across Modbus, BACnet, EtherNet I/P, and more.

2 Expand Your Market Reach

Reach more industries with versatile, multi-protocol support.

3 Future-Proof Your Product Portfolio

Adapt to emerging protocols and technology changes.

4 Reduce Development Costs and Time

Focus on core features while reducing costs and complexity.

5 Enhance Interoperability & Integration

Seamlessly integrate into existing systems without hassle.

6 Scalability for Complex Systems

Scale communication networks while maintaining performance.

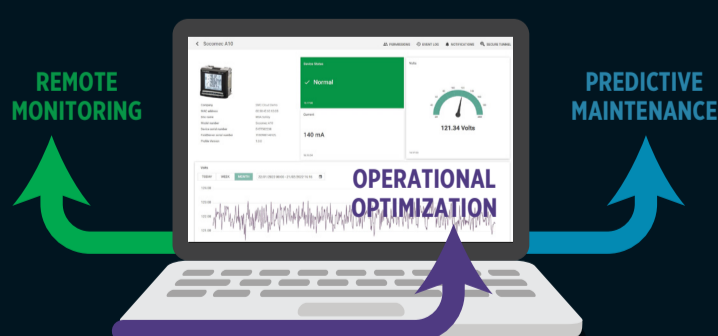

7 Centralized Control & Management

Control multiple systems from a single hub.

8 Make Better Business Decisions and Generate New Service Revenues.

Collect key data to capture insights on your equipment and add valuable services.

Drive Business Growth with FieldServer™ Protocol Gateways

Multi-protocol support • Customizable & scalable
Reliable & easy deployment
